# Graphs, gradients and intercepts

**This task is about the gradient and the intercept of graphs.**

a) Select the graph that shows a gradient bigger than 1, and a positive y-intercept.

b) Select the graph that shows a gradient bigger than 1, and a negative y-intercept.

c) Select the graph that shows a gradient between -1 and 0, with positive y-intercept.

d) Select the graph that shows a gradient less than -1, and a negative y-intercept.
