

# International time difference II

This task is about working with negative numbers and international time zones.

New Zealand (NZ)	+12	Berlin (B)	+2
Sydney (S)	+10	Amsterdam (A)	+1
Los Angeles (LA)	-8	Moscow (M)	+4
Vanuatu (V)	+11	Ecuador (E)	-5

The table shows how many hours each place is ahead of, or behind, Greenwich Mean Time (G.M.T).

- a) On the time line below put in the code letter(s) of each place, showing its difference from G.M.T. Amsterdam (**A**) has been done for you.

- a) How many hours is New Zealand time ahead of Amsterdam time?  hours
- b) What is the time difference between Sydney and Moscow?  hours
- c) What is the time difference between New Zealand and Ecuador?  hours
- d) At 6:30 p.m. John, in New Zealand, phones his friend in Berlin. What time would it be in Berlin?
- e) If it is 2300 hours in Los Angeles, what is the time in Vanuatu?
