

Buying some gear

This task is about adding up decimal money values.

a) Josh had saved \$329 in his bank account.

He used his EFT POS card to buy:

- a refurbished laptop for \$150.80,
- two flash drives for \$18.50 each, and
- a headphones for \$32.90.

How much did he spend? \$

b) Chelsea had \$573. She bought:

- a new phone for \$159.50,
- a spare phone charger for \$12.70,
- a micro SD card for \$15.20, and
- \$30 phone top up.

How much did she spend? \$
