

# Test scores

---

Mr. Jackson did a test with 31 students in his room.

He gave each student a mark for the number of questions they answered correctly.

## **Mean - Mode - Minimum - Average Range - Median - Maximum**

Choose the correct word from above to complete each sentence.

The highest mark is called the

*mode / minimum / average / median / range / mean / maximum*

The middle mark is called the *mean / mode / minimum / average / maximum / median / range*

The highest mark minus the lowest mark is called the

*mean / mode / minimum / average / maximum / median / range*

The most common mark is called the

*mean / mode / minimum / average / maximum / median / range*
