# Transforming Patterns II

This task is about reflection, rotation, and translation.

The following questions ask you about the **type of transformation** (reflection, rotation, translation) that has been used to make a pattern.

(1) (2) (3) (4) (5) (6)

Which transformation can be used to move Shape (1) to Shape (2)?

| ○ Reflection | ○ Rotation | ○ Translation | ○ None of these |

Which transformation can be used to move Shape (3) to Shape (4)?

| ○ Reflection | ○ Rotation | ○ Translation | ○ None of these |

Which transformation can be used to move Shape (6) to Shape (5)?

| ○ Reflection | ○ Rotation | ○ Translation | ○ None of these |

Which transformation can be used to move Shape (1) to Shape (3)?

| ○ Reflection | ○ Rotation | ○ Translation | ○ None of these |
