

What's the chance of that?

This task is about the chance of something happening.

Choose the best word to show how often each of the following events is likely to happen.

a) If Jake takes a marble out of the bag it will be blue.

always

maybe

never

b) If Vai takes a marble out of the bag it will be blue.

always

maybe

never

c) If Aroha takes a marble out of the bag it will be yellow.

always

maybe

never

d) If Alex takes a marble out of the bag it will be green.

always

maybe

never
