

A mystery photo

This task is about observation skills and finding clues to solve the mystery behind a photo.

a) i) Look carefully at this photo. List all the things you can see.

b) i) Look carefully at this photo. What sort of animal is in the photo?

b) ii) What makes you think that?

Science clues:

1. This sort of animal picks up food floating on the sea.
2. The things in the photo were found inside the animal after it had died.

Can you solve the mystery?

c) i) What do you think happened?
