

# Buying some tech gear

---

This task is about including and excluding GST.

Rachel wants to buy some tech gear. She needs to know whether the GST is included or excluded.

- a) Rachel likes pair of headphones that is priced at \$420 **excluding** GST of 15%.

How much is the GST on these headphones?

\$

- b) She then sees another pair of headphones priced at \$380 excluding GST of 15%.

What is the total price (including GST) she would pay for these headphones?

\$

- c) Rachel also looks at a new phone that costs \$920 **including** GST of 15%.

How much GST has been included in the total price of \$920?

\$

- d) Rachel then sees another phone that costs \$1012 **including** GST of 15%.

What was the price of the phone **before** GST was added?

\$
