# Earthquake epicentre

This task is about using data to find out more about earthquakes.

a) Label the following three parts of the diagram: **fault line - focus - epicentre**

b) Describe the situation happening on the picture above.
   What do all of the arrows indicate?

c) What do the numbers 6.5 m, 2.0 m etc., indicate?

d) What general name is given to the structures labelled Australian and Pacific?

e) Give the most probable reason for this earthquake occurring.
