## The history of words

## This task is about the structure of words.

Thousands of our most used words have their origins (roots) in Old English, or in other languages such as French or Latin.

For questions a) to d), read the words and then write the meaning of the circled root word in the space provided.

Read the words and then write the meaning of the circled root word in the space provided.

a)	Examples:	circus	circle	circumfe	rence						
	circ means										
Re	Read the words and then write the meaning of the circled root word in the space provided.										
b)	b) Examples: spectacles inspect  spec means										
Read the words and then write the meaning of the circled root word in the space provided.											
c)	Examples: form means	transform 	າ form	ation	uniform						

d) The table below shows five root words, their meanings, and an example of a word that contains that root word.

Complete the table by giving two more examples for each root word.

	Root Word	Meaning	Example 1	Example 2	Example 3
i)	mobil	to move	mobility		
ii)	dict	speak	predict		
iii)	volv	to roll	evolve		
iv)	tract	to pull	attract		
v)	cent	a hundred	centenarian
