

Rock Doc

This task is about finding information in an article and using it to make inferences.

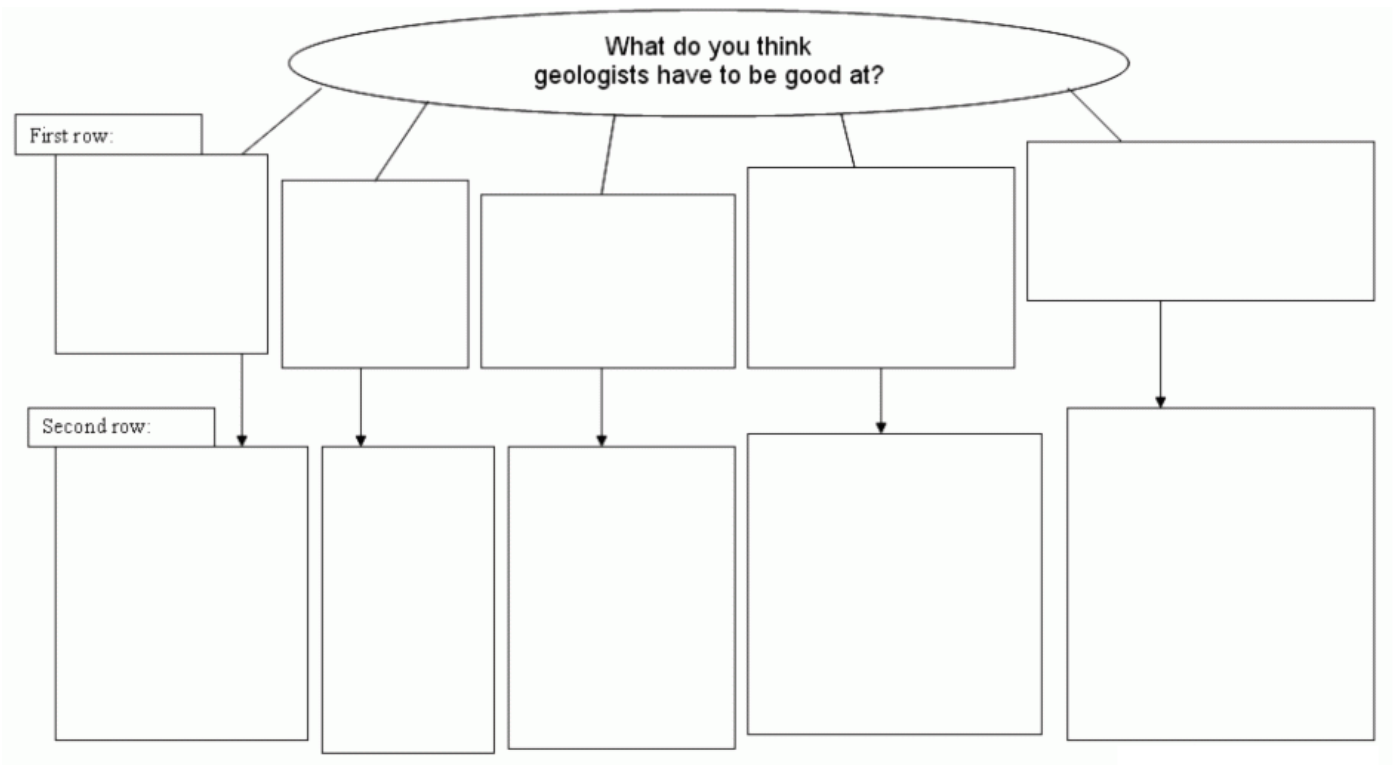

Read the article 'Rock Doc' by K. E Anderson, Junior Journal 21, pages 8-13. Remember to look at the pictures too.

a) Use all the information in the article to answer the question "What do geologists do?" Write in notes, **not** in full sentences.

b) In the first row of boxes, suggest possible answers to the question, "What do you think geologists have to be good at?".

In the second row, explain where you got the answers from.
