

# Night in the forest

This task is about reading to find information and make inferences.

Read the poster and use the information to complete the following tasks.

a) Use the ideas from Night in the Forest to explain how birds, insects, and bats find food at night. Fill in the chart. Write one idea for each bullet point. The first one has been done for you.

Animal	How does this animal find food?
Kiwi	Can smell food/worms through its nostrils at the end of its nose.
Morepork	<input type="text"/>
Glow-worm	<input type="text"/>
Bat	<input type="text"/>

b) Give the meaning of the word that is underlined in these parts of **Night in the Forest**.

i) "...and makes a net of sticky, dangling threads."

**dangling** means

ii) "...many native flowers are white to attract night flying moths and beetles."

**attract** means

iii) "The kiwi is special."

**special** means
