

Chocolate Fish

This task is about listening and recalling information.

Listen to the text and answer the questions.

a) How do the chocolate fish become fish-shaped?

- Cooked marshmallow is cut into fish shapes.
- Hot marshmallow is poured into special trays.
- Marshmallow is put into baking dishes and cooked.
- Hot marshmallow is poured on to wire mesh.

b) What happens to the fish immediately after they have passed through the chocolate waterfall?

- They disappear into a cooling cabinet.
- The fish are flipped upside down.
- They are coated underneath.
- The fish are moved on to another clean conveyor belt.

c) How are the fish coated underneath with chocolate?

- They are turned upside-down by a conveyor belt.
- The fish are tipped on to wire mesh and sprayed with chocolate from below.
- The fish are dipped in warm, liquid chocolate.
- They are tilted up and down so that the chocolate flows under them.

d) For how long do the chocolate-coated fish stay in the cooling cabinet?

- 5 minutes
- 10 minutes
- 20 minutes
- 30 minutes

e) The "grim future" the chocolate fish are "going forth to" is that they will be

- cooked.
- frozen.
- eaten.
- sold.
