

Snakes and ladders

This task is about the chance of something happening.

Tui and Nīkau are playing Snakes and Ladders.

Tui's counter is on the number 22, and it is her turn to roll the dice.

41	42	43	44	45	46	47	48	49	50
40	39	38	37	36	35	34	33	32	31
21	22	23	24	25	26	27	28	29	30
20	19	18	17	16	15	14	13	12	11
1	2	3	4	5	6	7	8	9	10

Tui rolls a single dice once on her next throw.

From that roll what is her chance of landing on ...

... the number 48? *impossible* / *poor* / *even* / *good* / *certain*

... a ladder (numbers 24, 26, or 27)? *impossible* / *poor* / *even* / *good* / *certain*

... a snake (number 23)? *impossible* / *poor* / *even* / *good* / *certain*

... a ladder or a snake (numbers 23, 24, 26, or 27)? *impossible* / *poor* / *even* / *good* / *certain*

... a number greater than 22? *impossible* / *poor* / *even* / *good* / *certain*
