

Racing car combos

This task is about finding all possible combinations.

Practical Task

At the start line of a race cars can be ordered in different ways.
For example: 2 cars could be ordered either:

Cut out the pictures of the cars from the sheet and use them to help you solve the problems below.

a) List all the different ways 3 cars could be ordered at the start line.

b) List all the different ways 4 cars could be ordered at the start line.
