

Website hits

This task is about reading information from a time-series graph.
Plan-Ahead website

This graph shows the number of daily hits on the Plan-Ahead website for May.

Several people made comments about the graph.

a) Select whether these statements about the month of May are True or False.

- | | |
|---|--------------|
| i) "There was no pattern to the number of hits during May." | True / False |
| ii) "The number of hits on the website increased overall during May." | True / False |
| iii) Monday is the most popular day for using the website. | True / False |
| iv) "The fewest hits were on Saturday, 2nd May." | True / False |
| v) "The pattern repeated on a weekly basis." | True / False |

b) Give your own description of the **most important** features that the graph shows about the hit rates during May 2021 on the *Plan-Ahead* website.
