

# Colour of lunch boxes

This task is about commenting on statements about what a dot plot shows.

Here is a graph that shows the colour of lunch boxes of all the children in Room 3. Some children have no lunch box.

Colour of lunch boxes of children in Room 3

Emma

Blue was the most common colour.

Jack

More children had red than yellow.

Maya

The least number of children had green lunch boxes.

Noah

More than half the children had no lunch box.

a) Which person said something that was not correct?

Emma

Jack

Maya

Noah

They all made correct statements.

b) Explain why you decided on your answer.
