

School rubbish

This task requires interpreting a table of data and writing a report about it. It also involves collecting data.

All 10 rubbish bins at Waikōwhai Intermediate are being replaced. The Tumuaki asked some students to do a survey for 2 weeks about rubbish around the school. Here are their results.

School Rubbish Survey

Area of School	Total number of supermarket bags filled with rubbish over 2 weeks
Adventure Playground	20
Netball Court	11
Field	20
Lunch Area	22
Office Area	9
Under the Trees	18
TOTAL	100

- a) Use the information from the table above to complete the report form below for the Tumuaki.

Report to the Tumuaki on Rubbish Survey
Area(s) with lots of rubbish: <hr/>
Area(s) with less rubbish: <hr/>

- b) Now complete the table below to suggest how many of the 10 bins should be placed in each of these areas of the school.

Area of School	Number of bins to be placed
Adventure Playground	
Netball Court	
Field	
Lunch Area	
Office Area	
Under the Trees	
TOTAL
