

Maths exam

This task asks questions about box-and-whisker graphs.

Examination results in mathematics

This box-and-whisker graph shows the results of a mathematics exam sat by six classes.

The marks are given as percentages.

Which class has ...

- the student with the highest mark? _____
- the highest median mark? _____
- the biggest range of marks? _____
- the smallest inter-quartile range? _____
- a quarter of its students getting more than 70%? _____
