## This task asks questions about box-and-whisker graphs.

## **Examination results in mathematics**

This box-and-whisker graph shows the results of a mathematics exam sat by six classes.

The marks are given as percentages.

Which class has ...

- a) the student with the highest mark? \_\_\_\_\_
- b) the highest median mark? \_\_\_\_\_
- c) the biggest range of marks? \_\_\_\_\_
- d) the smallest inter-quartile range? \_\_\_\_\_
- e) a quarter of its students getting more than 70%?
