

Netball and archery

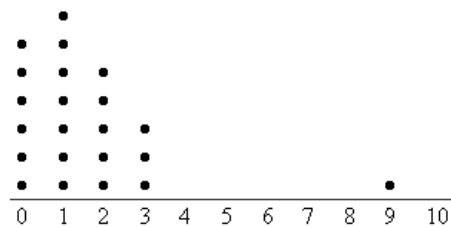

This task is about reading information from a dot plot.

Number of netball goals scored

- a) A class of 34 students each shot a netball 15 times.
The dot plot above shows the number of goals each student got.
Describe the shape of this dot plot.

Number of bull's-eyes hit

- b) A class of 22 students each shot 10 arrows at a target.
The dot plot above shows the number of bull's-eyes each student hit.
Describe what this dot plot shows.
