Cross country race

This task is about reading information from raw data.

These numbers show how many minutes it took each student to run the school cross-country.

$$53 \quad 50 \quad 52 \quad 38 \quad 30$$
$$37 \quad 36 \quad 55 \quad 35 \quad 40$$
$$41 \quad 52 \quad 36 \quad 37 \quad 49$$
$$50 \quad 57 \quad 37 \quad 59 \quad 36$$

a)   Of the students that ran the cross-country, what was

    i) the **fastest** time? _____ minutes

    ii) the **slowest** time? _____ minutes

    iii) the **average** time? _____ minutes

All	**Most**	**Some**	**None**

Choose one word from the box above to complete each sentence about the cross-country.

    i) _____ of the students took more than an hour to run the race.

b)

    ii) _____ of the students took between 35 and 55 minutes to run the race.

    iii) _____ of the students took less than 40 minutes to run the race.
