Social studies test

This task is about reading information from box-and-whisker graphs.

Box-and-Whisker Graph of Marks for Social Studies Test

Four classes did the same social studies test. The box plots above show the marks the students got.

a) Which class had the student with ...

- i) the highest mark?
- ii) the lowest mark?
- b) Which class had the **lowest median** mark? _____
- Which class had the **smallest range** of marks?
- d) Which class had the **best** overall performance?
