

# City spending

This task is about interpreting a pie chart.

## Spending of city rates 2024-2025

The pie chart above shows how each **dollar** of city rates was spent in Wellington in 2024-25.

a) In the newspaper it said, "59 cents of each dollar provided resources for the community". What are the the **two** areas of spending this sentence is talking about?

<input type="radio"/> Rubbish collection	<input type="radio"/> Recreation, e.g. parks, libraries
<input type="radio"/> Water	<input type="radio"/> Sewage & drainage
<input type="radio"/> Other community services	<input type="radio"/> Loan interest

b) Of each dollar, how much was spent on rubbish collection?  cents
