

Throwing a ball

This task is about reading information from a stem-and-leaf graph.

All the students in Room 8 threw a netball as far as they could.
The distance each person threw the ball is shown in the stem-and-leaf graph below.

Distance the netball was thrown (metres)

- a) What was the shortest distance the ball was thrown? m
- b) What was the most common distance the ball was thrown? m
- c) How many students threw the netball more than 21 metres, but less than 29 metres?
- d) How far was the longest throw? m
