

Cleaning the beach II

This task is about reading information from a pie graph.

Children from Cockle Bay School spent an afternoon cleaning up their local beach. The pie graph shows the types of rubbish they collected.

Cockle bay beach rubbish collection

a) Which **two** types of rubbish made up half of the rubbish collected? *Select two*

<input type="radio"/> Metal	<input type="radio"/> Glass
<input type="radio"/> Paper	<input type="radio"/> Plastic
<input type="radio"/> Wood	<input type="radio"/> Other

b) Three times more plastic rubbish was collected than which other type? *Select one*

<input type="radio"/> Metal	<input type="radio"/> Glass
<input type="radio"/> Paper	<input type="radio"/> Plastic
<input type="radio"/> Wood	<input type="radio"/> Other

c) Which **two** types of rubbish were collected in nearly the same amounts? *Select two*

<input type="radio"/> Metal	<input type="radio"/> Glass
<input type="radio"/> Paper	<input type="radio"/> Plastic
<input type="radio"/> Wood	<input type="radio"/> Other
