Sports played

This task is about creating a pie graph from information in a strip graph.

| Golf	Netball	Hockey	Rugby	Soccer

This strip graph shows the sports played by 80 children at St. Clair School.

The size of each segment represents the number of players.

a)   How many children played each sport?

   Golf: _____   Netball: _____   Hockey: _____   Rugby: _____   Soccer: _____

b)   Using the circle below, draw a pie graph to show the numbers playing each sport.
