

# Transport to school

This task is about reading information from a bar graph and calculating percentages.

Anne carried out a survey to find out how each of the Year 8 students came to school in the morning.

Here are her results.

**How Year 8 Students Came to School**

a) How many students came by car? \_\_\_\_\_

b) How many students came by bus? \_\_\_\_\_

c) How many Year 8 students did Anne survey? \_\_\_\_\_

d) What percentage of students cycled to school? \_\_\_\_\_ %
