

Teenagers time for tasks

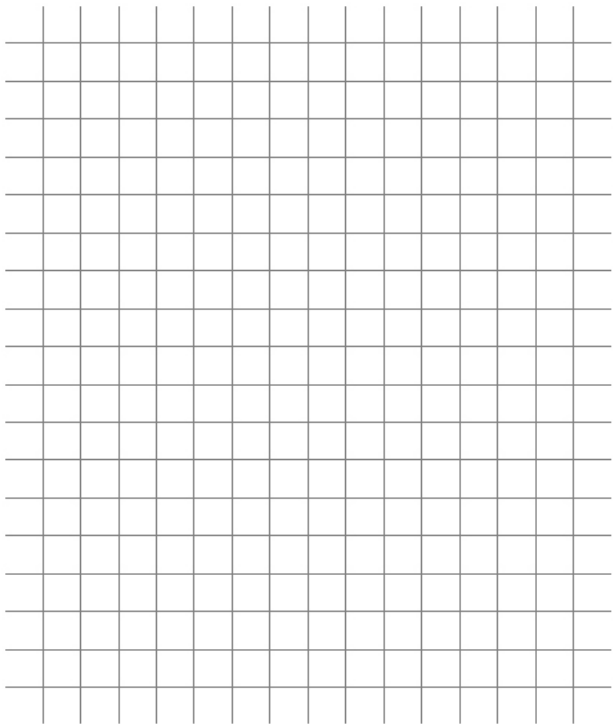

This task is about plotting a composite bar graph.

How do New Zealander's aged 13-18 spend their time?

Main Activity for people aged 13-18 years - Average Minutes per day				
Gender	Household Work	Social Entertainment	Sports and Hobbies	Mass Media and Free Time Activities
Female	57	143	59	148
Male	33	106	129	155

Statistics New Zealand and the Ministry of Women's Affairs carried out a Time-use survey to find out what activities people spend their time on. The table above shows some of their results.

a) Draw a composite bar graph on the grid below using the data from the table.

b) Write **two** statements comparing the activities of females and males in the survey.

1. _____

2. _____
