Nutrition in foods

_	4.0		
Pra	ctica	al Ta	ask

Your teacher will give you 3 different brands of a food product, each with nutritional information available on the packets.

a)	Draw a composite strip graph below showing the total amount of <i>carbohydrates</i> , <i>proteins</i> , <i>fats</i> , and <i>other</i> per 100 grams for each brand. Label your graph clearly.
b)	Write a statement comparing a feature of all 3 of your strip graphs.
