Softball throws

This task is about creating a back-to-back stem-and-leaf graph from raw data.

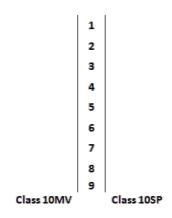

Classes 10MV and 10SP had a softball throwing competition. They measured their throws to the nearest metre. Here are their results.

Class 10MV						Class 10SP				
31	43	62	38	51	47	22	38	35	59	
47	26	18	49	73	50	17	78	24	43	
55	38	66	29	34	32	81	36	41	29	
58	43	14	44	69	53	42	42	58	71	
48	60	37			33	43				

Complete this back-to-back stem-and-leaf graph, to show the results of the throws. You do not a)need to order the leaves on a stem.

Length of Throws of Class 10MV and 10SP Students
