

Multiplication test results

Mr McGregor gave his class a basic facts multiplication test out of 100. The students' scores were displayed in "clubs",

e.g., a score of 62 is in the "60s club".
a score of 5 is in the "0s club".

Finish the table below by completing the headings and recording the following scores into the correct "clubs". Also complete the total number of students for each club. The first score has been done for you.

26	42,	79,	38,	97,	81,	86,	57,	95,	79,	80,	88
68,	92,	84,	73,	83,	74,	63,	41,	70,	48,	27,	66
			99,	85,	49,	98,	56,	75
