

Birth months I

This task is about planning a statistical investigation.

Lagi wanted to find out what month of the year was the most common for birthdays in Year 8.

She decided to carry out an investigation in her school to find this out.

a) What question will Lagi need to ask to get information for her investigation?

b) Who will Lagi need to ask?

c) Design a table (not a graph) in the box below that Lagi could use as she collected her data.

--

d) Lagi wants to present her data to the class. What type of graph could she use?
