

Finding out about sports on TV

This task is about planning a statistical investigation.

Charlotte said, "I think Year 5 students at our school like watching cricket more than they like watching netball, rugby, or soccer." She decided to carry out an investigation to find this out.

a) What question will Charlotte need to ask people at the beginning of the investigation?

b) Who will Charlotte need to ask?

c) Draw a table in the box below that Charlotte could use to record her results.

Playground survey

d) Charlotte wants to show the class her results. What type of graph could she use to present her data?
