

Plant height

This task requires you to construct a time series graph.

Ben planted a small lettuce plant and measured its height with a millimetre ruler, at the same time each day.

His results are in the table below.

Day	Height (mm)
1	10
2	13
3	15
4	20
5	30
6	33
7	35

Use Ben's results to draw a line graph on the grid below.

- Give your graph a title.
- Label your graph.
- Write in any missing numbers.
