

Temperatures across the region

This task is about constructing a composite dot plot.

Temperatures in the lower North Island (N.I) of New Zealand (°C)

A newspaper showed a weather map of temperatures in the lower North Island of New Zealand and a table of temperatures in the Pacific region.

Use the map and the table to complete the composite dot plot below, of temperatures in the lower North Island and in the Pacific region.

The dot for Adelaide has been drawn in for you.

Composite dot plot of temperatures in the lower North Island (N.I) and Pacific region (°C)
