

Homework times

This task is about plotting data on a graph.

Below is the record Lagi kept of the time she spent on maths and science homework over 10 weeks.

	Week									
	1	2	3	4	5	6	7	8	9	10
Maths homework (minutes)	35	40	20	15	25	40	20	10	25	20
Science homework (minutes)	0	10	30	10	15	45	55	50	5	30

a) Graph these results as a line graph below. Label the graph correctly.

b) In which week did Lagi do the most homework?

Week _____

c) The largest time difference between maths and science was in which week?

Week _____

d) Make a general statement about the differences in Lagi's patterns of maths and science homework over the 10 weeks.
