

Marine fish

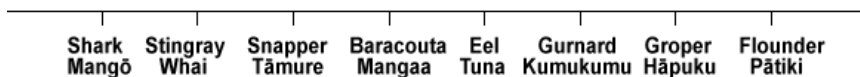

This task is about creating a dot plot from data in a tally chart.

Some students did a tally of the fish they saw in the aquarium at Marine Park. This is what they counted.

Shark - Mangō	///
Stingray - Whai	
Snapper - Tāmure	###
Barracouta - Mangaa	###
Eel - Tuna	
Gurnard - Kumukumu	
Groper - Hāpuku	###
Flounder - Pātiki	###

- a) Complete the dot plot below showing the students' results. Remember to give your graph a title.

- b) Which was the **most** common fish the students saw? _____

- c) The students saw the same number of flounder as which other fish? _____
