

# Word lengths

**This task is about constructing a tally chart and pie graph.**

- a) Count the number of letters in each word in the box below. Do not count full stops (.). Enter your tallies in the table.

Josh woke up really early. It was his tenth birthday. His Mum brought him breakfast in bed. Josh then opened his first present for the day. He could not believe his eyes. He had always wanted a skateboard. He rushed to school to show all his friends. That afternoon he had a party and he got some more great presents.

Number of letters in each word	Tally	Total
1 or 2 letters		
3 letters		
4 letters		
5 letters		
6 or more letters		
		60

- b) Put the results of your tally into the pie chart below. Label it carefully and give it a title.
