

Exam results

This task asks questions about box-and-whisker graphs.

This box-and-whisker plot shows the results of a class of 32 students who sat end-of-year examinations in mathematics and science.

Examination Results in Mathematics and Science

a) How many students scored 38 percent or below in science?

b) i) Which subject has the higher median mark?

ii) By how much higher is it?

c) What is the range of marks for mathematics?

d) What fraction of the class scored 50 percent or more in science?
