

Weighing for the post

This task is about adding decimal weights.

Manaia needs to post three parcels each containing some books, pamphlets or magazines. He weighs each book, pamphlet or magazine and writes down the weight. Show how to add the following weights for each parcel.

a) $2.96 \text{ kg} + 3.57 \text{ kg} + 1.04 \text{ kg}$

Total weight: ____ kg

b) $0.16 \text{ kg} + 0.4 \text{ kg} + 0.306 \text{ kg}$

Total weight: ____ kg

c) $1.21 \text{ kg} + 2.046 \text{ kg} + 0.9 \text{ kg}$

Total weight: ____ kg
