Changing prices

This task is about adding and subtracting decimal numbers.

DVDs cost $24.95
CDs cost $19.95

Lachlan and Sarai collect old CDs and DVDs. They buy them from Megahits Music Store.

a)   Megahits Store increases the price of DVDs by $0.70 but reduces CDs by $1.30. Sarai plans to buy 7 DVDs and 4 CDs.

i)   Would Sarai have to pay more for her DVDs and CDs **before** or **after** the price changes?

Before / After   *(Circle one)*

Working

ii) What will the difference in price be? $_____
