

Labelling envelopes

Connor had a job putting labels on envelopes. He worked at a steady pace and found that he had put on 450 labels in $1\frac{1}{2}$ hours.

- a) How many labels did he put on each minute? _____
- b) How long did it take him to put on a single label? _____ seconds.
- c) At this rate, how many labels will he put on if he works for $7\frac{1}{2}$ hours? _____
