# Building percentages

This task is about finding percentages of whole numbers.

Below is a diagram of a building.

a) If the total height of this building is 30 metres, work out the height for 50%, and 25% of the total.
Write your answer in the box opposite the percentage.

Percentage		Height
100%		30 metres
i) 50%	⟶ ☐	metres
ii) 25%	⟶ ☐	metres

b) Explain or show what you would do to find 75% of the height of the building.
