

Estimating in sport

This task is about using a way of estimating that you have discussed with your teacher.

a) Emani wrote down her team's scores from 8 games of netball.

Here are her results: **42 45 35 37 46 33 49 34**

An estimate of about how many goals were scored altogether is .

Show how you made your estimate in this box.

Have a group discussion with your teacher on your ways of estimating for this problem.

Make and explain estimates for each of these problems.

b) Jamal wrote down the scores from 7 innings of 50-over cricket.

Here are his results: **172 216 187 192 231 207 178**

The number of runs scored is about .

Show how you made your estimate in this box.

c) At 6 games of rugby at The Stadium, the crowd sizes were as follows:

33 182 29 943 27 284 29 423 32 127 34 119

The total attendance was about .

Show how you made your estimate in this box.
