

# City populations

---

This task is about adding and subtracting decimal numbers.

- a) The population of a city went up from 1.83 million to 2.54 million.

What was the population increase?

- b) In another city the population went down from 1.72 million to 1.39 million.

What was the population decrease?

- c) Before the population changes, what was the total population of the two cities?
