

# Buying surfing gear

---

This task is about including and excluding sales tax.

Raedon wants to buy some surfing gear. He needs to know whether the sales tax is included or excluded.

- a) Raedon likes a surfboard that is priced at \$360 excluding sales tax of 12.5%.

How much sales tax would he pay on this surfboard? \$

- b) He then sees another surfboard that is priced at \$480 excluding sales tax of 12.5%.

What is the total price he would pay for this surfboard? \$

- c) Raedon tries on a wetsuit that costs \$180 including sales tax of 12.5%.

How much sales tax has been included in the total price of \$180? \$

- d) Raedon then sees another wetsuit that costs \$279 including sales tax of 12.5%.

What was the price of the wetsuit before the sales tax was added? \$
