

Lemons, library and sports

This task is about adding and subtracting numbers.

Read each problem and work out the answer.

- a) Mrs Brown has 33 lemons and Mrs Smith has 29 lemons.

How many lemons are there altogether?

- b) Kevin was asked to wait 35 minutes at the library.

After 19 minutes had gone, how many minutes did he still have to wait?

- c) At a sports day there were 38 children from one school, 47 from a second school and 56 from a third school.

How many children were there altogether?
