

Building a fence

This task is about multiplying with decimals.

To build a fence across their section Toni needed fence posts, lengths of timber, and palings.

a) Calculate the total length of ...

i) 4 fence posts, each 2.1 m long. _____ metres

ii) 6 lengths of timber, each 2.4 m long. _____ metres

iii) 46 palings, each 1.3 m long. _____ metres

Palings cost \$1.25 each.

b) How much would 46 palings cost? \$ _____ . _____
