

Computer games

This task is about working out costs with multiplication and percentages.

The information below shows the costs of buying some computer games from the United States (U.S.) through a mail-order computer company.

Computer Game Cost

1 to 4 games	\$55 each
5 to 24 games	\$45 each
25 to 49 games	\$40 each

Postage and Handling Cost (P&H)

P&H cost of first game:	\$5 for deliveries within the U.S. \$7 for deliveries outside the U.S (overseas).
P&H cost of additional games:	\$1 each

Tax Cost: Californian residents ONLY, please add 7% tax on the total cost (including P&H cost).

Note: All prices are in U.S. dollars (US\$)

- a) How much would it cost to buy one computer game, including P&H, if someone lived in the United States somewhere other than California? US\$
- b) How much would it cost a person living in New Zealand to buy, including P&H, 26 computer games? US\$
- c) How much would it cost a person living in California to buy, including P&H,
- one computer game? US\$
 - 7 computer games? US\$
